02.03 Using tools and spare parts

Using tools and original spare parts

FERRARI supplies workshops authorised to repair its vehicles with specific tools to ensure that repair work is carried out correctly and safely.

Carrying out any work without using specific FERRARI tools, or using alternative tools, may cause damage to relative component and/or system, voiding the warranty.

Always use original FERRARI spare parts, consulting the relative spare parts catalogue.

In addition to voiding the warranty, using non original components may damage the vehicle and expose the user to danger.
