C4.01 PTU hydraulic system layout

- A - PTU
- B - Gear oil pipes
- C - Gear oil radiator
- D - Auxiliary Power Unit tank
- E - Solenoid valve block
- F - Power Unit tank
- G - Power Unit
- H - Power Unit accumulator
- I - Low pressure oil pipe for electrohydraulic actuator system
- L - High pressure oil pipe for electrohydraulic actuator system

PTU electrical connector diagram

Each connector on the PTU is identified by a coloured tape (silver or yellow) and by a number (from 1 to 12). The following two diagrams identify all the connections: the number (e.g. **3**) indicated in each box is the number printed on the coloured tape, while the colour of the box represents the colour of the tape itself.
